MSPHL-20DRL-SERIES MULTI-FUNCTION HEADLIGHT, TURN SIGNAL, DRL PARKING LAMP, AND FLASHING WARNING LIGHT

The MSPHL-20DRL Series is an Externally-Mounted Headlamp designed for Snow Plow and other Industrial applications. This multi-function Headlamp comes with a built-in Amber Turn Signal (LH or RH) and White DRL Daytime Running Light / Park Light (SAE P). The center LED bar uses 2 color Amber/White LEDs that will function as DRL, Park, Amber Turn, or optional Flashing Warning.

The durable 3mm thick High Impact Glass lens incorporates optional *MaxxHeat* Heated Lens Technology which turns on automatically as needed to keep snow and ice melted. The universal design can be mounted on left or right side of the vehicle using the 100-degree adjustable swivel bracket – which accommodates a bottom-mount or a rear-mount application. It comes with an 8.2 feet Shielded 6-conductor cable assembly for easy Installation which plugs into the integrated Deutsch-style DT04-6P water-proof connector. The two robust M10 mounting bolts are adjustable side to side between 2.7 inches and 3.5 inches center to center. The MSPHL-20 Series is built with a cast aluminum housing and high impact glass and polycarbonate lens and is backed by a 3-year warranty.
